Becca DiDomizio

Becca was a pure, bright light that illuminated so many lives. She spread joy wherever she went for 20 wonderful years, and we lost her too soon from a serious health condition. Although she had disabilities and was nonverbal, Becca had her own unique ways of showing her love through her expressive eyes and warm cuddles that said more than words ever could.

Becca spent five fulfilling years as a special education student in Newtown High School, surrounded by her peers and the amazing staff of the Newtown school district. During that time, she had the opportunity to make friends, socialize, and participate in activities she otherwise wouldn't have had access to. The two Special Education

programs that were especially impactful were Unified Sports and Best Buddies, where Becca formed close bonds with other students and was embraced wholeheartedly.

Becca was a gift to so many people. As a daughter, sister, family member, and friend, she will be cherished forever. We wish for this scholarship to honor our beloved Becca and benefit a student that has been touched by special education, embraces the differences of individuals, and appreciates life's simple moments.
